## Orée Sconce

The Orée sconce features a sculptural disc of solid hardwood that has been shaped with a series of furrows to create a striking composition that accentuates the organic beauty of the hardwood that it's carved from.

This modern wood sconce is backlit with a halo of light that illuminates the surrounding wall with a warm glow, making the Orée sconce a natural choice to light any space including hallways, bedrooms and entryways.

As with all of our wooden light fixtures, the Orée sconce is made from solid North American hardwoods, including walnut, oak, alder and ash. Orée sconces are hand-finished with a LEED compliant, low VOC, non-toxic, natural oil finish that brings the beauty of the wood grain to life.
